### Going to Mali

Africa Trial Sites Team to meet Bamako, Mali The Africa Trial Sites network will have an informal meeting in Bamako, Mali in conjunction with the Generation Challenge Program's **Annual Research Meeting (ARM)**. Network participants will plan next steps in the development of the catalogue. They will spend a day and half in the field visiting trial sites and villages where agronomists and farmers are working in crop improvement. If you would like to participate in this meeting or for more information contact [Glenn Hyman](#) (Contact US)

Drought Tolerant Maize for Africa (DTMA) The Africa Trial Sites network works in close collaboration with DTMA. On their [website](#), you can find information trial sites, participant and partners, seed suppliers and publications. Note their geographic information systems module and maps for Africa.

Africa Trials Sites (Africats.org) is an initiative of the [AgCommons](#) consortium The ATS network is an initiative developed under the AgCommons umbrella of efforts to enhance location-specific agriculture. AgCommons is a network of partners working on information and communication technologies, including geographic information science and technology, for helping agricultural solutions reach small farmers in developing countries.
